**WARNING: contains high levels of copper. Do not feed to sheep or goats**

## Feeding Directions

Protubs 30% supplement is designed ONLY for beef cattle on low protein food sources. One tub should be placed per 20 head, however it may be necessary for more tubs to increase accessibility. Cattle should consume approximately 0.5lbs to 1.0lbs per head per day. This product contains no more than 10% protein from non-protein nitrogen (urea). Do not provide this product to starved livestock. Provide access to clean, fresh water at all times .

Net Weight 200lb (90.7kg)
